PROJECT

BuslyBRO - Bus reservation system

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a web-based bus reservation system for online ticket booking and management.
- Implemented user registration, secure login, bus search, seat selection, and ticket booking features.
- Designed an admin dashboard to manage buses, routes, schedules, bookings, and users.
- Integrated MySQL database for secure data storage and efficient reservation management.
- Built a responsive and user-friendly interface using HTML, CSS, and JavaScript.
